PROFESSIONAL SUMMARY

Information Technology professional with hands-on experience maintaining and developing production web and enterprise systems, combined with a track record shipping 3 production Flutter applications end-to-end, from UI implementation through release. Combines full-stack web and mobile development with applied AI research, translating technical requirements into working software and coordinating cross-functional teams. Structured, detail-oriented, with experience leading small teams and managing project timelines using Jira and Trello.

WORK EXPERIENCE

Software Engineer | Karya Dreams Digital

2026 – Present

- Maintain and develop the Web and Karya10 System, ensuring stability and reliability of production systems
- Collaborate with cross-functional teams to troubleshoot issues and implement ongoing improvements

Full-Stack Mobile App Developer (Intern) | PT Anugerah Lelang Indonesia

2024 – 2025

- Developed and deployed 3 production Flutter mobile applications as part of a cross-functional team, contributing across the full lifecycle from UI implementation and API integration to release, including SMARTBID, a live mobile bidding application.
- Shipped iterative feature releases on schedule by incorporating user feedback into each sprint, directly contributing to SMARTBID's successful public launch.
- Promoted to Project Manager for the Mobile Development team; coordinated task assignments, sprint planning, and progress tracking for the team using Jira and Trello.

EDUCATION

Bachelor of Information Technology | Swiss German University | 2022 – 2026

Science Program | PENABUR Bintaro Jaya High School | 2019 – 2022

ACADEMIC PROJECTS

AI-Based Motion Tracking System for Dance Movement Training | Final Year Thesis | 2026

- Designed and developed a web-based AI motion tracking system using Python, Flask, and MediaPipe BlazePose to assess beginner hip-hop dance movements against expert reference videos.
- Implemented FastDTW and FFT-based audio cross-correlation algorithms to score movement accuracy and rhythmic timing, backed by a Python/Flask/SQLite backend.
- Conducted usability testing across 45 recorded videos with 5 participants, achieving a System Usability Scale (SUS) score of 69 (Acceptable) and a statistically significant correlation with expert scoring for one of three evaluated movement categories ($r = 0.54$, $p = 0.037$).

SKILLS & CERTIFICATIONS

Programming & Frameworks: Flutter, JavaScript, Next.js, React, Python, Java, Go, Laravel, HTML, CSS

Data & Databases: SQL, MySQL, PostgreSQL, MongoDB, Firebase, Power BI (Data Visualization)

Tools & Platforms: Git/GitHub, Android Studio, Figma, Jira, Trello

Cloud & DevOps: Docker, AWS, Linux (RedHat, Ubuntu)

Technical Domains: REST APIs, OOP, Data Structures & Algorithms, Cross-Platform Mobile Development, UI/UX & Responsive Design, SDLC, Computer Vision (MediaPipe, OpenCV), Machine Learning Fundamentals

Certifications: Network Defense Essentials (NDE), Ethical Hacking Essentials (EHE)

Languages: English (Advanced), Bahasa Indonesia (Fluent), German (Basic)

Soft Skills: Teamwork, Leadership, Communication, Problem-Solving, Critical Thinking, Creativity

ORGANIZATIONAL EXPERIENCE

Member | General Elections Commission (KPPS) | 2024

- Managed high-volume crowds in a fast-paced polling environment and resolved procedural issues calmly under pressure.

Head | Swiss German University Modern Dance UKM | 2022 – 2023

- Led a student club of dancers, coordinating rehearsal schedules and maintaining member engagement across the academic year.

Treasurer (Board of Directors) | PENABUR Bintaro Jaya High School Student Council | 2021 – 2022

- Managed and reported on the student council's financial accounts, handling cash collections and disbursements with full accountability.
